Honor Policy

Students are allowed to work together on all aspects of this class except the midterm/final and quizzes. However, for the some homework assignments, each student must submit his or her own write up/presentation, clearly stating the collaborators. Your submission must be your own. When in doubt, contact the instructors about whether a potential action would be considered plagiarism. If you discuss material with anyone besides the class staff, acknowledge your collaborators in your write-up. If you obtain a key insight with help (e.g., through library work or a friend), acknowledge your source and write up the summary on your own. **It is the student's responsibility to remove any possibility of someone else's work from being misconstrued as the student's.** Never misrepresent someone else's work as your own. It must be absolutely clear what material is your original work.

Plagiarism and other anti-intellectual behavior will be dealt with severely. Note that facilitation of plagiarism (giving your work to someone else) is also considered to be plagiarism, and will carry the same repercussions.

Students are encouraged to use the Internet, literature, and other publicly-available resources, **except for homework solutions and test (including quizzes, midterms, finals, and other exams) solutions from past terms' versions of this course and other academic courses, whether at UMW and at other institutions.** You cannot use the internet for any exams. To reiterate, the students are not allowed to view and use past homework and test solutions, unless explicitly distributed by the CPSC 310 staff as study material.

Whenever students use Internet, literature, and other publicly-available resources, they must clearly reference the materials in their write ups, attributing proper credit. This cannot be emphasized enough: **attribute proper credit to your sources.** Failure to do so will result in a zero grade for the assignment and possibly a failing grade for the class, at the instructor's discretion. Copying directly from resources is not permitted, unless the copying is clearly identified as a quote from a source. Most use of references should be written in the words of the student, placing the related work in proper context and describing the relevant comparison.

Students who violate University standards of academic integrity are subject to disciplinary sanctions, including failure in the course and suspension from the university. Since dishonesty in any form harms the individual, other students, and the university, policies on academic integrity have been and will be strictly enforced.

Grading

Final letter grades will be determined according to the following department grading scale. I reserve the right to

lower these standards, but will not raise them. Anyone receiving a grade lower than a 70 may receive a midterm unsatisfactory grade.
